## USAID/HPI APPROACH TO SUSTAINABLE PROJECT DELIVERY AND PROGRAM DESIGN

**USAID/HPI applied a strategic approach to project delivery and the design of sustainable programs, resulting in measurable improvements in Vietnam's HIV/AIDS response.**

### **Policy Advocacy for HIV/AIDS**

USAID/HPI advocated for improved national and local HIV/AIDS and MARPs related policies, legal documents and plans based on international best practices. Multiple ministries and departments were supported throughout the policy development and implementation process, promoting greater consistency in the HIV/AIDS legal and policy framework in Vietnam.

### **Strategic Information**

USAID/HPI provided data to inform effective, evidence-based policy work and strengthen decision-making processes. Programs were implemented and evaluated, with the data used to influence program decisions, strategic plans and new policies.

### **Strengthening Leadership**

USAID/HPI supported policy advocates and decision makers to influence policy decisions. The capacity of Civil Society Organizations, Provincial AIDS Centers, Provincial People's Councils, and Ministry leadership to influence policy development was strengthened.
